

AUTRONIC MAFM1 A version - Set-up

Use left-hand front panel push-buttons to select the function to adjust.

Use right-hand front panel push-buttons to adjust the selected function.

Meter will return from adjustment mode to function select mode if no adjustment is made for 5 seconds, and return from function select mode to measurement display if no front panel push-button pressing occurs after a further 5 seconds.

Force an immediate return to measurement display by simultaneously pressing the 2 left-hand front panel push-buttons.
